## Coding Experience

### Eaton | January 2022 – April 2023

Part of the frontend team working on Eaton's energy management system for buildings, which included both local and cloud components.

My responsibilities included translating Figma designs into React components and integrating them with a REST API, refactoring code, bug fixing, documenting the project and team building.

## Other Experience

### 2009-2021

Previously a designer and video producer, mostly for online content, so I am comfortable with prototyping tools and have an eye for detail.

This is also when I first started building websites and learning CSS by using Wordpress.

## Certifications

### fCC Front End Development Libraries | 2021

### fCC JavaScript Algorithms and Data Structures Certification | 2021

### Front-End Web UI Frameworks and Tools | 2021

### Web Design for Everybody: Basics of Web Development & Coding | 2020

## Tech I've worked with

### HTML

### CSS
Bootstrap, Material UI

### JavaScript
TypeScript

### React
redux, redux-saga, axios, i18next, luxon, react-hook-form, react-router-dom, styled-components...

### DevOps
GitHub, Azure

### Design
Figma, InVision

### Other
Wordpress

## Other useful skills

### Production
Photoshop, Illustrator, Premiere, AfterEffects

## Languages

### Fluent
English, Portuguese

### Can probably ask for directions
Spanish

## Education

### Art and Media Licentiate Degree at the Faculty of Fine Arts of the University of Lisbon | 2004 - 2009
